18<sup>th</sup> April, 2020

Dear Parents,

The school has been conducting online classes for the students of classes 6-12 for the last few weeks. Online teaching is a new concept for all of us as neither our teachers nor our students were exposed to it earlier. But we are quite proud of both our teaching staff & our children who have risen to the occasion and seamlessly adopted technology.

The school has been using the Zoom app for conducting these classes. But we are all aware that Zoom has been facing a lot of criticism due to the various security breaches & zoom bombing by outsiders, leading to disruption of a class.

In order to prevent that, the school will be migrating to Microsoft Teams in the near future. The preparation for the same, including preliminary exposure to the app of the teachers has already happened. It is a more secure app where each child gets a unique email & password (created by us) which is required to enter a class. In case of any misuse of the app, identification and elimination of the student is possible.

Till the time we are able to migrate to Microsoft Teams, we will continue using Zoom for these online classes. Once we are ready to shift to the new app, we will communicate it to the parents & children. But this process will not take very long.

The teachers are making a lot of effort in making their classes interactive & interesting. But there is always scope for improvement. Therefore we would like your feedback on the same. We have attached the link of a Google form for you to fill which will give us some constructive feedback on these classes. We request you to fill the form, giving us your honest feedback, and submit it as soon as possible.

Click on the given link to access the form: <https://bit.ly/3crFpOF>

Look forward to greater learnings together.

Stay home, stay safe!

Warm regards

*Komal Sood*
